### **REASONS FOR ALLOWANCE**

1. Claims 1, 3-7, 9-13, 15-19, 21-26, 28-34, 37, 39-40, 43, 46-47, 49-52 and 55-60 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a method of driving an IPS (in plane switching) reflective type active-matrix (TFTs) liquid crystal display device comprising a combination of various elements as claimed, more specifically, at least the followings: an interlayer insulating film provided over the thin film transistor, the interlayer insulating film being a multilayer film comprising silicon oxide and silicon nitride film.

Ohta (6108065) discloses an IPS LCD device comprising pixel and common electrodes formed on the same substrate, interlayer insulating film. However, Ohta fails to disclose 'a method of driving an IPS (in plane switching) reflective type active-matrix (TFTs) liquid crystal display device comprising a combination of various elements as claimed, more specifically, at least the followings: an interlayer insulating film provided over the thin film transistor, the interlayer insulating film being a multilayer film comprising silicon oxide and silicon nitride film'.

Applicant has also filed a terminal disclaimer to overcome the obviousness double patenting rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
